

兔抗 ENG 多克隆抗体

中文名称: 兔抗 ENG 多克隆抗体

英文名称: Anti-ENG rabbit polyclonal antibody

别名: endoglin; END; HHT1; ORW1

相关类别: 一抗

储存: 冷冻 (-20℃)

宿主: Rabbit

抗原: ENG

反应种属: Human

标记物: Unconjugate

克隆类型: rabbit polyclonal

技术规格

Background:	This gene encodes a homodimeric transmembrane protein which is a major glycoprotein of the vascular endothelium. This protein is a component of the transforming growth factor beta receptor complex and it binds to the beta1 and beta3 peptides with high affinity. Mutations in this gene cause hereditary hemorrhagic telangiectasia, also known as Osler-Rendu-Weber syndrome 1, an autosomal dominant multisystemic vascular dysplasia. This gene may also be involved in preeclampsia and several types of cancer. Alternatively spliced transcript variants encoding different isoforms have been found for this gene.
Applications:	ELISA, WB, IHC
Name of antibody:	ENG

Immunogen:	Fusion protein of human ENG
Full name:	endoglin
Synonyms:	END; HHT1; ORW1
SwissProt:	P17813
ELISA Recommended dilution:	5000-10000
IHC positive control:	Human liver cancer
IHC Recommend dilution:	100-200
WB Predicted band size:	71 kDa
WB Positive control:	HepG2, Jurkat and MCF-7 cell lysates
WB Recommended dilution:	500-2000
